Deliverables

- Feature requirements document
 - Is planned to begin at the beginning of next week on October 24th.
 - Due on Oct 29th.
 - Status: Not yet started ❌

Milestones

- Beginning of research on extension-app infrastructure
 - Began last week on Oct 12th.
 - Completion date: Nov 12th.
 - Status: On schedule ✅
- Beginning of web extension development
 - Began this week on Oct 17th.
 - No completion date in sight.
 - Basic “Hello World” application expected by the beginning of next week.
 - Status: On schedule ✅

Important Team Meetings (Kaleb Completed)

- Had fourth meeting with sponsor (10-17)
 - Discussion of upcoming “Feature Requirements” document.
 - Established programming and research team
 - Biswas and Nikita were assigned to programming the extension, while Ian and Kaleb were assigned to research the extension-app infrastructure.
 - These are temporary assignments, and will be switched regularly.
 - Discussed the logistics of early programming on the web extension.
 - Discussed the logistics of how research on extension-app infrastructure should be conducted.

Labor Completed (Biswas Completed)

Ian Rule

- Attended meetings and lectures
- Scheduling meetings and communicating with team members, sponsors, and the TA
- Some of their time went into the Project Status Report and research
- Total hours: 4 hrs

Kaleb Pittman

- Attended meetings and lectures
- Created timesheet templates for team members as per TA's instructions
- Majority of time went into the Project Status report, taking care of documentation and research
- Total hours: 4.25

Biswas Gauli

- Attended meetings and lectures
- Majority of time went into the starting on the extension and github work
- Some time went into the timesheet and Project status report
- Total hours: 4.75

Nikita Feoktistov

- Attended meetings and lectures
- Majority of time went into the starting on the extension and github work
- Some time went into the timesheet and Project status report
- Total hours: 5.5

Issues or Risks Encountered (Nikita to Complete)

- Incomplete before the submission of this document.

Changes & Plan for Next Week (Ian Completed)

Changes to Project Requirements

- Project Requirement Document outline and one completed feature due Oct. 29th
- Will have a Project Plan Document due at some point

- Biswas and Nikita tasked with starting development of the Chrome browser extension with “Hello World” implementation
- Ian and Kaleb tasked with researching a specific app that has properly set up two-way communication between web and mobile
- We’re collapsing the meeting attendance and timesheet documents into one “timesheet” document

Plan for Next Week

- Biswas and Nikita will present their “Hello World” implementation of a browser extension
- Ian and Kaleb will present their research on their two-way communication apps
- Sponsor meeting: Tuesday at 8:00 AM
- Class midterm: Wednesday
- TA meeting: Wednesday at 5:00 PM
- Team meetings: TBD
- Project Requirement Document outline and one completed feature due Sunday at 11:59 PM
